Most of you have one or more friends who play golf and we need you to convince them to come on out and join our MGA so they can share in the fun with us. It is

my understanding that we have the most consistent membership in the Tulsa area and I think I can safely say that ours is the best MGA around. With your help, we can grow our event participation and improve on what we already have. How about it?

Next Event

Our next event is **The Total Ice Bowl** scheduled for Saturday, January 24th with a 12:00 Noon shotgun start. The format is 2-Man Scramble, pick your own partner. Handicap allowed will be 25% of team total handicap. All teams will start play on the Blue tees and may move up to the Red tees, or as far back as the Green tees, depending on the net score on each hole. Please refer to the poster on our website for all details. This is a great format and a barrel of fun.

Shanks of the Month

All functions of the Tournament Chairman have now been transferred to Robert 'Bob' Meyers. I am very pleased that Bob accepted this responsibility and from what I have witnessed to date, he is the perfect man for the job. Please give him your total support and cooperation as we progress through the golf year.

It's time for another of my harangues on our responsibility for being "stewards of the golf course". There are quite a few players who smoke and I know of no player who would begrudge them that right. However, it has become very apparent that many of the smokers are careless in disposing of their "**butts**".

While waiting my turn to putt on #15 I noticed there were several filter tip butts discarded on the green. I removed those and began looking around the fringe in front and left side of the green, I counted *no less than 30* butts. In addition to being very unsightly, it is frequently an interference with a player's ball.

How about it guys? Can't you find a better way to dispose of your "**butts**"? Don't even get me started on the soda and beer cans thrown into the bushes! I don't think any of us were born and raised in a barn but, it is hard to believe that based on the way we litter the course when it is so easy to just leave the stuff on the cart or put it in the trash receptacles provided.

Lets all resolve to do a better job of keeping our trash where it belongs.
